

		PolyBelt <sup>™</sup>	Power Transmission and Conveyor Bel			
		Belt type H-500		PB-037 Ver.3		
<ul> <li><i>Applications</i></li> <li>Light duty tran</li> <li>Light duty conv</li> </ul>						
Construction						
			Top side	Bottom	side	
			NBR	NBR		
			1.1mm	1.1m	ım	
			Rough pattern	Rou	gh pattern	
			Blue	Blac	k	
			Tension member	Splice		
			Polyamide	Skiv	er	
			Film			
			0.5mm			
			Construction			
imensions		Properties				
Width/Roll (max.)		Minimum	pulley diameter	Tensile pr	operties	
	325m	m Power Trans	smission Application	Tensile stren	gth	
Width/Endless (max.)		Skiver	50mm		150N/mm	
	300m	m			Elongation at break	
Length (max.)		Conveyor Ap	oplication	20%		
	105	m Skiver	50mm	Maximum al	lowable tension	
Total thickness					22.5N/mm	
3.5r		m			Maximum allowable elongation	
Weight					3.0%	
	3.8 Kg/r	n²				
Please contact Nitta if you need other dimensions.		sions. Dynamic	Dynamic properties		<b>Coefficient of friction</b>	
Regulatory compliance		Standard ele	-	Top v	s. Steel	
RoHS(2011/65/EC,			2.0%		0.5~0.6	
(EU)2015/863)		Tension afte	er relaxation at 2.0%	V	s. Paper	
			7.5N/mm		0.6~0.7	
		Initial tensio		Bottom v	s. Steel	
			22.5N/mm		0.5~0.6	
Features		Tension afte	Tension after relaxation at 3.0%		s. Paper	
Antistatic			11.3N/mm		0.6~0.7	
Superior abrasion resistance		Operating te	emperature range	V	s. Lagged pulley	
Superior oil resistance			-20~80°C		0.7~0.9	
			emperature range*	V	s. POM (resin)	
Roller bed		Operating te				
Roller bed Thick (Heavy) rubbe	r type		-20~80°C		0.5~0.7
